

COVID19 Vaccination Policy

Eglinton Experiences Limited **Covid19 Policy Explanation**

Dear Guest,

As you are aware, New Zealand will move to the Traffic Light system on Friday 3rd December 2021.

Eglinton Valley Camp (previously known as Knobs Flat) is fully committed to the best possible health and safety protection for our team, guests, and visitors to our camp. After undertaking a thorough risk assessment, we have decided the best course of action for us to achieve this is to implement a Covid Vaccination Passport requirement in our workplace.

From Friday 3rd December, all our team interacting with guests will be vaccinated and all guests and visitors to our workplace over 12 years and 3 months of age must be able to produce a Covid Vaccination Passport to prove they are fully vaccinated against Covid-19.

In addition to above policy, we also require that all guests and visitors:

- Notify us if they are feeling unwell or have cold/flu symptoms and we can change your arrival date or facilitate a full refund.
- Scan in prior to entering our workplace.
- Practice good hygiene including hand sanitizing.
- We also encourage the use of face coverings; however, these are not mandatory at the Orange Light setting.

If you have not been vaccinated and do not have an exemption, we regret that for the safety of all our guests, our team, and our remote community, you will not be able to stay with us at this time. In this case, our friendly team can help you re-book your visit for a later date (once you are fully vaccinated), or we will provide you with a full refund if your booking was made with us prior to 3rd December 2021. If your booking was not made directly with us, please talk to your point of purchase to seek a full refund.

Thank you for your understanding.

Best regards,
The team at Eglinton Valley Camp.
